

EcoSystems - Biology Chapter 4

Across

2. These will not grow well in the Rio Grande Valley of Texas
5. This continent is covered by a layer of ice nearly 5 kilometers thick!
10. The average, year-after-year conditions of temperature and precipitation
11. The boreal forest biome is also called this.
15. The Eastern United States is this type of a biome.
18. These type of bacteria decompose oils inside whale bones.
19. These are wetlands formed where rivers meet the sea.
20. One of the gases that trap heat energy
21. This aquatic ecosystem produces the most organic matter.
22. Nearly three fourths of the earth's surface is covered with this.
24. This is where both species benefit from a relationship.
25. We live in this type of a biome
27. The first species to populate an area is called the ????? species.
29. This kind of swamp is found in Alabama, Georgia, Louisiana and Arkansas
30. If an organism's habitat is its address, then its ????? is its occupation.
31. Biological influences on organisms within an ecosystem are called ????? factors.
32. The type of nice kitty at the front of the chapter
34. This is NOT present in the aphotic zone.
35. Warm air tends to ?????

Down

1. The area where an organism lives is called its ?????
2. Coral animals skeleton is made of this substance.
3. In ????? one organism lives on or inside another organism and harms it.
4. This can grow as much as 50 centimeters a day
6. We live in this climate zone
7. The lynx lives in this biome.
8. The series of predictable changes that occurs in a community over time is called ??? succession.
9. Young frogs are called ?????
11. This climate zone is near the equator and is almost always warm.
12. The day-to-day conditions of the Earth's atmosphere
13. This is a layer of permanently frozen subsoil.
14. This zone in the ocean only goes down about 200 meters.
16. An interaction in which one organism captures and feeds on another organism is called ?????
17. This is any relationship in which two species live closely together.
23. This warbler feeds at the top of the Spruce Tree.
26. Thick mats of this type of moss grow in bogs.
27. Eskimos live in this climate zone
28. There are three main types of freshwater wetlands; marshes, swamps, and ?????
29. The Tropic of ????? is in the northern hemisphere.
33. This type of eagle is found in the desert biome.

What element's name means "acid former"?
